OUT OF SCHOOL CLUB

SUMMER TERM 2018

SUMMER TERM ROUND UP

During the last few months we have had some great activities that the children have planned and enjoyed... with lots of the older children taking responsibilities in running team games, organising activities and taking the lead and showing younger children how resources and experiments can work.

Incorporated in the last term we have looked very closely at our British Values and have looked at how they affect us in our day to day lives, how we are all unique and what it means to be inclusive.

The Government has defined British Values as:

Democracy

The rule of law

Individual liberty and mutual respect

Tolerance of those with different faiths and beliefs

As part of the British values we have held meetings with the children and asked them to tell us what they would like to change to improve their experience at ASC . The children all agreed they love the activities and would like to do more outdoor activities so this terms theme is “the great Outdoors”. The children have participated in nest building, den making, sports matches and more regular park visits to name but a few . We still have toasting marshmallows, making bug hotels and planting our ASC garden yet to look forward to.

The other voice they wanted heard was to change to a Summer menu which has been a great success. All the children sat down and discussed healthy eating and the combination of proteins carbohydrates vitamins etc in their diets and came up with the new menu and are enjoying this very much.

Goodbye and Good Luck!

Sadly we say goodbye to three young ladies as their journey with Pumpkins comes to an end and they move on to senior school in September. Sofia, Megan and Rosie have not only been with Pumpkins at the After School Club but also started with us at the nursery when they were little tots! Our association with them has been a long one and in Sofia's case for most of her life and saying goodbye will be a wrench for all of us and for our colleagues at the nursery. We are extremely proud of the lovely young ladies that they have grown up to become and we want to be sure to give them a good send off.

In true girly fashion they have chosen to have a "Pamper Evening" on Tuesday 17th July when all the children can indulge in a spot of foot massage and pedicure, manicures and nail varnishing, hair styling and general indulgence. We wish them every success in their new schools and on their next journey in life.

This will finish a week of fun and games including a picnic in the park, wacky sports evening, and the ever popular movie night.

Have a lovely Summer and see you all again in September.
